Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-14, 16-21, 23-25, 27-32 and 34-43 are rejected under 35 U.S.C. 102(a) as being anticipated by applicant's admitted Prior Art, namely Fig.6.

Fig. 6 illustrates a multiplier circuit wherein a plurality of partial products (602a-602p) are added by a plurality of adders that include a plurality of 4 – 2 compressors (604a –606d) having the same width.

3. Claims 1-14, 16-21, 23-25, 27-32 and 34-43 are rejected under 35 U.S.C. 102(b) as being anticipated by Hale.

Hale's Fig. 1 illustrates a multiplier circuit wherein a plurality of partial products (16) are added by a plurality of adders that include a plurality of 4 - 2 compressors (compressors 14a – 14f and 24) having the same width.

4. Claims 1-14, 16-21, 23-25, 27-32 and 34-43 are rejected under 35 U.S.C. 102(e) as being anticipated by Wang et al (Wang).

Wang's Fig. 6 illustrates a multiplier circuit wherein a plurality of partial products (the outputs of the Booth Group Recoder) are added by a plurality of adders that include a plurality of 4 – 2 compressors (compressors 164-180) having the same width.

Claim Rejections - 35 USC § 112

5. Claims 6, 17, 23-32 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 6, 17, 28 and 39 are mis-descriptive because the width of each compressor is not equal to the width of the input. Lines 2-3 of claim 23 are grammatically incorrect.

Allowable Subject Matter

6. Claims 22 and 33 are allowed.

7. Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Specification

8. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Drawings

9. It appears that Figs. 5A and 6 should be labeled "Prior Art".

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Malzahn whose telephone number is (571) 272-3727. The examiner can normally be reached on M-Th from 7:30 to 6:00.
